

# AIRMEZ MATRIX PRO 30000

## Technical Specifications & Industrial Comparison

Engineering Department

March 12, 2026

### Product Overview

The AIRMEZ MATRIX PRO is a high-capacity **disposable vape** engineered for maximum efficiency and user control. It utilizes a proprietary Dual Mesh Coil architecture to maintain thermal stability across 30,000 activations.

### Technical Data Table

Specification	Detail
Max Capacity	30,000 Puffs
Battery Type	800mAh Integrated Lithium-Ion
Charging Port	USB Type-C (Fast Charge Enabled)
Coil Resistance	Dual Mesh System
Display	2.1-inch HD Smart Screen
Airflow	Adjustable Dual-Valve System
Connectivity	Bluetooth / Luck Room App Sync
Safety Features	Leak-Proof Seal, Overcharge Protection

Table 1: AIRMEZ MATRIX PRO Core Specifications

### Comparative Analysis

This table compares the MATRIX PRO against standard market-entry **disposable vapes** to demonstrate its superior resource management.

Feature	Standard Disposable	AIRMEZ MATRIX PRO
Puff Count (Est.)	5,000 - 10,000	30,000
Battery Capacity	500mAh - 650mAh	800mAh
Display Type	LED Indicator (Static)	2.1" Interactive Screen
Coil Tech	Single Wire/Mesh	Precision Dual Mesh
App Integration	None	Luck Room App Supported

Table 2: Industry Comparison Table

## **Performance Summary**

The AIRMEZ MATRIX PRO utilizes advanced atomization logic to ensure that the aromatic profile does not degrade as the internal capacity decreases. The inclusion of the 2.1-inch screen allows for precise monitoring of the 800mAh power cell, ensuring the user is never without their device unexpectedly.
